IMPROVERS ALPINE SKILLS TRAINING

GLOCKNERGRUPPE/OBERWALDERHÜTTE 2.973 m

Training on Ice and Rock! The Oberwalderhütte - located in the Glockner Gruppe next to the Großglockner, the highest mountain in Austria - is probably the best base to improve basic skills in rock climbing as well as various exercises on the glacier. Some important theoretical units will complete the content of this course!

COURSE DATE	Min./Max.	PRICES	DEAD LINE
28.07. – 03.08.2024	5 – 6 Persons	€ 1.465,- (Members) € 1.580,- (Non-Members)	24.05.2024

PLANNED DAILY ROUTINE

The following is a typical schedule with the guide fine tuning the plan according to the prevailing weather conditions and the experience of the group:

DAY 1: Train ride from Salzburg central station to Zell am See train station, from there by local bus to Fusch an der Großglocknerstraße, the beginning of the mountain road up to Kaiser-Franz-Josefs-Höhe. From here take a taxi (mountain taxi) up to the „Kaiser-Franz-Josefs-Höhe“ at 2.369 m, the meeting point with the guide. 3 hours ascent from here to the Oberwalderhütte 2.973 m. After dinner preview of activities of the whole week.

DAY 2: Refresh: crampon techniques and use of ice axe, incl. self arrest
climbing knots
glacier skills: roping up, moving and climbing on different slope angles
crevasse rescue
Planning the next day

DAY 3: Glacier training: anchors and running belays on snow and ice
Placing ice screws, deadman and choosing a good location
Climbing steep ice.
Planning the next day

DAY 4: Glacier training: putting it all together
Moving in a roped party
Group management
Decision-making and orientation
Planning the next day

DAY 5: Movement on rock: training for rock ridges
Improvement in climbing techniques,
Anchors and running belays incl. belaying techniques
Moving together and use of hand coils
Installing and climbing a fixed rope
Rescue management and first aid.
Planning the next day

DAY 6: Training for steep firm (snow) slopes and ice. After dinner: reflections on the week

DAY 7: Descent to Kaiser-Franz-Josefs-Höhe, farewell around 12 o'clock

In the evening there will be theoretical units on various topics like orientation, reading maps, alpine danger and alpine weather.
