## English in Action

This is the theme of this 3-5 day program. Join English native speakers and / or English-speaking outdoor trainers for a “hands-on” learning adventure. We will combine outdoor & nature education, group dynamic activities, & fun into a program where participants will hardly notice that they are using English!

English will be reinforced through task-based learning, activities, games, writing, & songs. *It's “All English, All the Time!”*
